Education

New York University, College of Arts and Science and School of Global Public Health **New York, NY**

B.S. in Biology and Global Public Health, Minor in Bioethics

- New York University London (Jan 2024-May 2024)
- Honors/Awards: Outstanding Student Engagement, Dean Undergraduate Research Fund, Public Health Emerging Leaders
- Relevant Courses: Gene Structures, Genetics, Protein Biochemistry, Epigenetics, At the Bench Genetics and Genomics

Choate Rosemary Hall **Wallingford, CT**

High School Diploma

- Honors/Awards: Dean's List for Academic Merit, Capstone Scholar, Monterey Fellow
- Relevant Courses: Organic Chemistry, Anatomy and Physiology, Molecular Cell Biology, International Relations

Posters and Publications

Posters

- Sandra Patrucco Reyes, Lauren Mays, **Amitra Hoq**, Kathleen Pivarnik, Adiba Geeti, Yaw Adjepong "A brief overview of hospitalized COVID-19 patients from an inner-city, residents-run clinic" ATS 2021 Conference, Online
- **Amitra Hoq**, Caleb Anderson, "Response of Anti-Ro Associated Suspected Sporadic Late Onset Nemaline Rod Myopathy To Aggressive Immunomodulating Therapy" Congress of Clinical Rheumatology West, Sept 27, 2024, San Diego
- **Amitra Hoq**; Prince Michael Amegbor; Gifted Anson. Socioecological Determinants of Pregnancy Outcomes in Ghana: Insights from the 2017 Ghana Maternal Health Survey. APHA Annual Meeting, 2025, Washington, DC.
- **Amitra Hoq**; Prince Michael Amegbor; Gifted Anson. Socioecological Determinants of Pregnancy Outcomes in Ghana: Insights from the 2017-2022 Ghana DHS. AAG Annual Meeting, 2026, San Francisco, CA.

Publications

- Hoque SM, Islam MK, **Hoq Amitra**, Haque MM, Maritim S, Coman D and Hyder F (2021) Comparative Study of Specific Loss Power and Transverse Relaxivity of Spinel Ferrite Nanoensembles Coated With Chitosan and Polyethylene Glycol. Front. Nanotechnol. 3:644080. doi: 10.3389/fnano.2021.644080
- Brewster, R.C.; Tse, G.; Fan, A.L.; Elborki, M.; **Hoq, Amitra**; et al. (2025).Evaluating human-in-the-loop strategies for artificial intelligence-enabled translation of patient discharge instructions: a multidisciplinary analysis. npj Digital Medicine. doi:10.1038/s41746-025-02055-6

Professional Experiences

NYU School of Global Public Health: Lab for Equitable Environments for Health and Well-Being **New York, NY**

Assistant Research Director *Nov 2024-present*

- Assisting the principal investigator in the creation of research projects and maintenance of on-going projects, recruitment of members
- Optimizing all lab operations by organizing biweekly meetings, communications, newsletters, and all other administrative related tasks

NYU School of Global Public Health **New York, NY**

Course Assistant for UGPH 50: Environmental Health *Aug 2024 -May 2025*

- Tracked attendance, grading assignments and calculating final grades
- Held office hours for students who needed extra guidance with the material, in addition to reviewing lecture material one-on-one and in groups
- Helped the professor with preparing lesson material

HealthRight International **New York, NY**

Program Support Support Intern *Jun 2023 – Aug 2023*

- Conducted comprehensive literature reviews and background research to inform evidence- based program strategies and interventions for health care equity welfare programs in Kenya, Uganda, Ukraine, Nepal and Vietnam
- Participated in site visits to Kenya in order to continue monitoring and evaluations of said programs, in addition to learning about local and country healthcare systems in order to optimize triage in HIV/AIDS and PMPCT clinics

NYU Langone: Landau Lab **New York, NY**

Assistant Research Technician *Mar 2023-Oct 2023*

- Aided in the development of CAR T Cell vaccines through plasmid construction, flow cytometry analysis, tissue culture and growth, running PCRs, Sanger and Next Generation Sequencing, mice handling,(injections and dissections)
- Assisted in day to day lab operations, in addition to administrative tasks

Yale University School of Medicine: Hyder Lab **New Haven, CT**

Research Intern *Jun 2020 – Aug 2020*

- Synthesized, through experimentation and calculations, manganese ferrite particles in order to test their efficacy in reducing
- tumor size
- Running TEM and MRI analyses in order to determine the efficacy synthesizes ferrite particles
- Greatly contributed to the writing the manuscript regarding these experiments, which were accepted for publication

Leadership & Extracurricular Activities

School of Global Public Health Student Council **New York, NY**

Senator to the Student Government Assembly *May 2023 - Dec 2023*

- Attended weekly meetings with general student government body, regarding updates with student council activities
- Assisted in the creation and execution of student life activities, the coordination of Study Strong Week, and outings for both undergraduate and graduate school student bodies
- As a requirement of serving as a SGA senator, participated in two executive committees; the Conference Fund Committee and the Sustainability Committee.

Delta Epsilon Mu **New York, NY**

Conference Chair *May 2023 - Dec 2023*

- Organized conference application workshop, research grants workshops, and pre health professional panels
- Organized fraternity wide poster sessions

Skills & Interests

Languages: English (Fluent), Bengali (Fluent), Arabic (Proficient), Hindi (Proficient), Spanish (Proficient)
Technical Skills: R, Python, arcGIS
Interests: Reading, Escape Rooms, Trivia Nights, Photography, Travel
